Anuradha Dwivedi

Computer Science Student at JSPM University | Web development
| Python | Java | Intern at Qualitas Global Services | Ex-Intern at
Developer's Arena | Open to Work

Pune Division, Maharashtra, India

Summary

> I am a Computer Science student at JSPM University with a strong interest in Frontend Development. I specialize in building responsive and user-friendly web applications using HTML5, CSS3, JavaScript, React.js, and Redux. I previously worked as an Intern at Developer's Arena, where I gained hands-on experience developing real-world projects, improving UI performance, and writing clean, maintainable code. Currently, I am working as an AI/ML Intern at Qualitas Global Services, contributing to data annotation and computer vision projects. This experience is helping me understand how intelligent systems are trained and how high-quality data supports AI models. I am passionate about creating seamless user experiences and continuously improving my skills in modern web technologies. I am actively seeking opportunities as a Frontend Developer where I can contribute, learn, and grow.

Experience

Qualitas Global

AI Operations Intern

February 2026 - Present (4 months)

Pune Division

Worked as an AI/ML Intern contributing to image and video data annotation projects. Maintained high data accuracy and supported computer vision models for sports analytics tasks while collaborating with the team in an on-site environment.

The Developers Arena

Web Development Intern

November 2025 - February 2026 (4 months)

Pune District

Worked as a Web Developer Intern at @The Developers Arena (Remote).

During this internship, I gained hands-on experience in building responsive and user-friendly web applications. I worked on frontend development using HTML, CSS, and JavaScript, and improved my understanding of modern web development practices.

I also learned about version control using Git & GitHub, project structure, debugging, and writing clean and optimized code. This internship helped me strengthen my technical skills and grow professionally.

EduSkills Foundation®

6 months

Python full stack developer intern

January 2025 - March 2025 (3 months)

Remote

Successfully completed a 10-week Virtual Internship on Python Full Stack Development organized by AICTE & EduSkills.

Developed responsive front-end applications using HTML5, CSS3, JavaScript, React.js

Built backend applications with Python Flask and integrated REST APIs

Worked on MySQL & MongoDB databases for data management

Gained experience in version control (Git/GitHub) and application deployment

Improved problem-solving, debugging, and teamwork skills through real-world project tasks

AI-ML Virtual Intern

October 2024 - December 2024 (3 months)

Remote

Successfully completed a 10-week intensive AI-ML virtual internship.

Worked on real-world Machine Learning and Artificial Intelligence projects.

Gained hands-on experience with supervised and unsupervised learning techniques.

Developed skills in Python programming, data preprocessing, model training, and evaluation.

Completed assignments and capstone projects under the mentorship of experts from Google and EduSkills.

Learned about industry best practices for AI/ML model deployment and ethical AI practices.

Education

JSPM University Pune

Bachelor of computer science , Computer Science · (July 2023 - May 2026)
